The Boeing 737 MAX is a narrow-body aircraft series designed and produced by Boeing Commercial Airplanes as the fourth generation of the Boeing 737, succeeding the Boeing 737 Next Generation (NG). The pilots of Ethiopian Airlines ET302 turned off MCAS on the Boeing 737 Max, but also then discovered their manual trim controls weren't working. Introduction. Welcome to the Boeing 737 Technical Site. Here you will find technical, operational, and training notes; articles and photos contributed by 737 pilots and engineers from around the world. This program follows Boeing's recommended procedure and describes the items to be checked during a pilot's preflight exterior inspection.
