

Download Clock Hands For Paper Plate Clock

Have fun learning to tell the time by making your own paper plate clock. The lolly stick hands can be moved around to change the time on the clock. You can teach kids to tell time with this paper plate clock craft tutorial. Most children can easily understand time with digital clocks, but face a bit of a challenge learning to recognize time on an analog clock. Instructions. Glue the two plates together, one on top of the other, so your clock has a rim that's a different color from the face. Stick the numbers (or write them) in the proper places. We have a great selection of both round and square metal clock dial faces as well as beautifully crafted German bezel/crystal/dial combinations, economical styrene dials and a great selection of adhesive backed clock numbers in both brass and black finishes.
