

# Download Design A Prayer Mat Template

design your own prayer mat ... This website and its content is subject to our Terms and Conditions. Using this blank template of a prayer mat, your child can decorate it with a design of their choosing. I have included 3 different Prayer Mat Crafts in this post, depending on skill. These include crafts that all children can be involved with, both my children have attempted the worksheet crafts and my 11 year old also made a Felt Prayer Mat. This simple word mat features key vocabulary for the topic of Islam. A great resource to keep on hand as a prompt and spelling reference during independent writing tasks and other activities.
