Engineering Ebooks for all semester exams. Dear Twitpic Community - thank you for all the wonderful photos you have taken over the years. We have now placed Twitpic in an archived state. A parallel circuit is a closed circuit in which the current divides into two or more paths before recombining to complete the circuit. Each load connected in a separate path receives the full circuit voltage, and the total circuit current is equal to the sum of the individual branch currents. B.Tech students must get consent of teacher (COT) before registering for graduate courses; S.No Course No Course Name / Syllabus Credit L - T - P - E - O - TH
