

Download Gardener's Guide To Growing Hellebores

While winter is still at its worst, the buds of hellebores burst through, their delicate blooms opening in an ever-expanding range of colours and forms as spring progresses. The Gardener's Guide to Growing Hellebores by Graham Rice & Elizabeth Strangman This is the first book for gardeners on these captivating plants. von Graham Rice und Elizabeth Strangman, Timber Press, erschienen 2001 mit 160 Seiten in englischer Sprache; Taschenbuch: Maße 23.6 x 18 x 1.4 cm: The Gardener's Guide to Growing Hellebores features a wealth of practical advice on the cultivation and propagation of these increasingly popular plants....a good companion to the book - "Hellebores: a Comprehensive Guide. A little technical - but good. The book covers hellebores in the UK though it did mention the USA and other places. For me, that was a slight down-side. The pictures were great. If you are interested in hellebores, you should also have this book as well.
