

Download Hein Stolle : Architect, Furniture Designer And Story Teller.

Hein Stolle. Just after the second world war, Dutch architect and furniture designer Hein Stolle experimented with new materials and techniques for the cost effective mass-production of furniture. Hein Stolle was a Dutch architect and furniture designer. Stolle designed the T46 Coffee table in 1946 which is produced from one sheet of laminated veneer. It may look like a cute triangle table, but it's entirely equilateral. The T64 coffee table was originally designed by Dutch Architect Hein Stolle in 1946. Designed by architect and designer Hein Stolle. A typical minimalistic design of Stolle. Designed in 1990. Also possible to be used as side table. So a furniture piece with two user options. A typical minimalistic design of Stolle.
