As nighttime approaches in a tropical rain forest in parts of Sumatra and Borneo in Asia, orangutans prepare for sleep. In forks of trees high off the ground, shaggy, red-haired apes bend branches down to form comfortable mattresses of leaves and twigs. They sometimes add a roof built from more branches, so that if it rains they will stay dry. ...The best place for video content of all kinds. Please read the sidebar below for our rules. One of the coolest lemur facts is that they can easily jump 6 times their body length. Lemurs are woolly-furred, long-tailed, arboreal animals that are found only on the island of Madagascar off the Eastern coast of Africa.
