

Download How To Wind A Manual Omega Watch

Wind it until it stops. Don't make this any more complicated than it needs to be. So how exactly ought one wind one's Omega Speedmaster? Or any manual wind watch for that matter? HACKO WATCHMAKER is operated by Nicholas Hacko, a third generation, European trained, specialist in watch and clock repair, and restoration. This proudly independent business is one of only a handful remaining in the Australian watch trade which is not in any way associated with Rolex, Cartier, IWC or any other watch manufacturer. Today we'll discuss the differences between automatic watches and hand-wound watches, also known as manual-wind watches. We'll also give you some insight on how you would use each of these as well as how these different types of watches work so that you'll appreciate these differences.
