2 Introduction The purpose of the pediatric anesthesia rotation is to provide an initial exposure to a variety of pediatric cases. The length of this rotation, 4 weeks, is enough to allow REASONS FOR IMPLEMENTING AN EMERGENCY MANUAL. In simulation studies, integrating emergency manuals results in better management during operating room critical events. Blue Phantom is proud to introduce our first anatomical pediatric ultrasound training model. CAE Blue Phantom Regional Anesthesia & Ultrasound Training model offers clinicians the most like-like training environment at low cost of ownership. An anesthesia care- or workstation combines an anesthesia respirator delivering a mixture of oxygen and anesthetic gas with a gas and ventilation monitoring system.
