

Download Study Guide The Integumentary System

Answers

Integumentary System. You wake up to walk the dog and step outside into what feels like a sauna! Within minutes, you're sweating! Where does the sweat come from? In this lesson, you will learn what an organ system is, and you will review each organ system in the human body. This will aid in your study of human anatomy and physiology. Certain factors can increase the risk of developing cellulitis and these are: Weak immune system. Bacteria easily lodges to a person who has a weak immune system. Much like sanitation workers who keep a city's water supply drinkable and dispose of its waste, the kidneys are usually unappreciated until there is a malfunction and "internal garbage" piles up.
