Solving Systems of Equations by Substitution Date\_\_\_\_\_ Period\_\_\_\_\_ Solve each system by substitution. 1)  $y = 6x - 11$   $2x + 3y = 7$  2)  $2x + 3y = 1$  ...The substitution method is one of the ways to solve a system of linear equations. Using this method, you isolate the variables and substitute one of them to solve for the other. These are worksheets you can use to practice the method. Sometimes it is not possible or convenient to solve a system of equations by graphing. In such a case we can turn to a method known as substitution to find the values of the variables. Substitution Method. Showing top 8 worksheets in the category - Substitution Method. Some of the worksheets displayed are Systems of equations substitution, Systems of equations substitution method, Systems of equations elimination, Systems of equations substitution date period, Systems of equations, Practice solving systems of equations 3 ...
