

# **Download The Nonhuman Primate In Nonclinical Drug Development And Safety Assessment**

Covance Inc. is a contract research organization (CRO) headquartered in Princeton, New Jersey, providing nonclinical, preclinical, clinical and commercialization services to pharmaceutical and biotechnology industries. The purpose of this guidance is to provide to sponsors nonclinical and clinical recommendations specific to the development of systemic drug products, with a focus on long-acting systemic drug. The variability of a study-specific correction manifests itself in the random variability of the estimates for the rate-correction coefficients, and this variability is even more pronounced when the determination of separate correction coefficients for each individual subject is considered as the latter are based on smaller datasets. The recent epidemic of Zika virus (ZIKV) in the Americas has revealed the devastating consequences of ZIKV infection, particularly in pregnant women.
